

Philippa Beagley

I am a teacher, project manager and community worker who loves working with people. I love dancing, especially social dancing such as salsa, tango and lindy hop, and I feel that the opportunities for social interactions through dance are truly beneficial. I believe that everyone can dance, and that there is a style of dance for everyone. I really enjoy teaching and managing creative projects in community and education settings. 8 years ago I started teaching salsa in Hastings and the following year I set up Dance Hastings with 3 friends from Hastings Salsa. We started by dancing in care homes and organising community dance events, and the charity has grown from there.

I am a member of People Dancing, and have completed their Safer Dance Practice training. I have a B.Ed in Dance and Primary education, I have completed The Paradance UK Inclusive Dance teacher training and I am a qualified first aider.
